EMS Volunteer Health Insurance Coverage

Beginning July 1, 2022, EMS volunteers serving in rural areas are eligible for health insurance coverage for themselves and their family members through a partnership of local agencies, the Utah Association of Counties, and the State of Utah.

Who’s Eligible?
To be eligible, you must meet the following requirements:

» Not have health insurance coverage available through an employer, a spouse’s employer, or a government plan or program

» Be licensed as an EMS provider

» Provide EMS services for a rural agency

» Respond to 20% of calls over a rolling 12-month period

Coverage is provided through PEHP and offers:

» Comprehensive medical coverage

» Access to all rural hospitals and a choice of either Intermountain or MountainStar/Steward/University hospitals along the Wasatch Front

» $35 office copays with a $2,000 individual/$4,000 family deductible

Cost
Monthly cost for the 2022-2023 plan year:

Single: $0

Double: $81.73

Family: $161.11

How Can I Enroll?
Current EMS volunteers can enroll through their local agency between May 15 and June 15 for coverage effective July 1, 2022. New EMS volunteers can enroll for coverage through their local agency within 30 days of starting service.

What Happens if I Lose Eligibility?
If you no longer meet all of the eligibility requirements, your EMS coverage will end on the last day of the month in which any one of the conditions for eligibility no longer applied.

More Information
Contact your local EMS agency for additional information.
Summit

Steward, MountainStar, and University of Utah Health Care providers and facilities. You can also see Advantage providers on the Summit network, but your benefits will pay less.

Participating Hospitals

If brand name is selected when preferred generic is available, you pay the preferred generic copayment and the difference in cost between the generic and brand-name medication. The difference in cost does not apply to the Deductible or Out-of-Pocket Maximum. Refer to the PEHP Preferred Drug List for coverage, as some preferred generic and brand-name medications may not be covered.

In- and Out-of-Network deductibles and Out-of-Pocket Maximums are combined and accumulate together.

*Out-of-Network Providers may charge more than the In-Network Rate unless they have an agreement with you not to. Any amount above the In-Network Rate may be billed to you and will not count toward your deductible or Out-of-Pocket Maximum. You pay 20% of the In-Network Rate after Out-of-Pocket Maximum is met for Out-of-Network Providers.

Some of PEHP’s Exclusive Benefits

On-Demand Doctors
See a doctor via mobile or web with discounted pricing through Intermountain Connect Care. It’s available 24 hours a day, every day, without an appointment.

PEHP Value Providers
Make one of these full-service providers your family doctor and save! They provide all the services of a family doctor, but at a lower cost.

Wellness For You
PEHP offers programs, tools, and resources to help you take control of your health, including Healthy Utah Testing Sessions.

New Prescription Cost Tool
Find drug options for your health condition, compare prices at different pharmacies, and see if cash back is available for your medication.

Get Up to $2,000 in Cash Back
Share in the savings when you choose a lower-cost provider. Find out about cash back services using PEHP’s Cost Tools. Look for the green phone with a dollar sign.

Pharmacy Resources
Find PEHP’s Covered Drug List, learn which medications require preauthorization, find information about savings programs and many more resources on PEHP’s pharmacy page.

Mental Health Care & Resources
Your PEHP mental health benefit covers treatment for specific mental health conditions.

Seeking Reimbursement for Cash Payments
If you pay for your covered medical service in full, you can get reimbursed or get credited towards your deductible. Find the reimbursement form at www.pehp.org under Resources & Help > Find a Form > Self-Pay Medical Claim Form.

Reimbursement for Pharmacy Cash Payments
If you pay for your covered prescription in full, you can get reimbursed or get credited towards your deductible. Find the reimbursement form at www.pehp.org/pharmacy/cob

PEHP Pays for Preventive Services
Stay healthy by getting preventive screenings every year. Preventive benefits are covered at no cost to you when you see an in-network provider — even before you meet your deductible.
Preventive Services Coverage

YOU’RE COVERED

PEHP Pays for Preventive Benefits at 100%*

Don’t put off that test or immunization. Preventive benefits are covered at no cost to you when you see a contracted provider — even before you meet your deductible.

Covered Preventive Services for Adults (Ages 18 and older)

» Preventive physical exam visits for adults, one time per plan year including:
  › Blood pressure screening
  › Basic/comprehensive metabolic panel
  › Complete blood count
  › Urinalysis
  › Abdominal aortic aneurysm one-time screening for men aged 65-75 who have ever smoked.
  › Alcohol misuse screening and counseling.
  › Aspirin use for men ages 45-79 and women ages 55-79, covered under the pharmacy benefit when prescribed by a physician.
  › Cholesterol screening for adults of certain ages or at higher risk.
  › Colorectal cancer screening for adults ages 45 to 75 using fecal occult blood testing, sigmoidoscopy, or colonoscopy. PEHP covers Conscious Moderate Sedation for Colonoscopy’s. If you don’t have an ASA score of P3 or higher, or a Mallampati score of III or higher, General Anesthesia or Monitored Anesthesia Care is not covered for those providers that bill separately for it. Check with your doctor to find out if you meet these requirements.
  › Depression screening for adults.
  › Type 2 diabetes screening for adults with high blood pressure.

» Diet counseling for adults at higher risk for chronic disease including hyperlipidemia, obesity, diabetes, and cardiovascular disease. Intensive counseling can be delivered by primary care clinicians or by referral to other specialists including registered dietitians.
  › HIV screening for all adults at higher risk.
  › Immunization vaccines for adults—doses, recommended ages, and recommended populations vary:
    › Hepatitis A
    › Hepatitis B
    › Herpes zoster (shingles age 60 and above)
    › Human papillomavirus (HPV)
      › males age 9-21 Gardasil
      › females age 9-26 Gardasil or Cervarix
    › Influenza (flu shot)
    › Measles, mumps, rubella
    › Meningococcal (meningitis)
    › Pneumococcal (pneumonia)
    › Tetanus, diphtheria, pertussis (Td or Tdap)
    › Varicella (chickenpox)
  Learn more about immunizations and see the latest vaccine schedules at www.cdc.gov/vaccines/.
  › Obesity screening and counseling for all adults by primary care clinicians to promote sustained weight loss for obese adults.
  › Sexually transmitted infection (STI) prevention counseling for adults at higher risk.
  › Tobacco use screening for all adults and cessation interventions for tobacco users.

» Syphilis screening for all adults at higher risk.

Covered Preventive Services Specifically for Women, Including Pregnant Women

» Preventive gynecological exam, two per plan year.
  › Anemia screening on a routine basis for pregnant women.
  › Bacteriuria urinary tract or other infection screening for pregnant women.
  › BRCA counseling about genetic testing for women at higher risk.
  › BRCA testing for women at higher risk, requires preauthorization from PEHP.
  › Breast cancer mammography screenings one time per plan year for women over 40.
  › Breast cancer chemoprevention counseling for women at higher risk.
  › Breast cancer medications for women at higher risk. Tamoxifen or Raloxifene.
  › Breastfeeding comprehensive support and counseling from trained providers, as well as access to breastfeeding supplies, for pregnant and nursing women. Coverage allows for either a manual or electric breast pump within 12 months after delivery. Hospital grade breast pumps when medically necessary and preauthorized by PEHP are also included.
  › Cervical cancer screening (pap smear) for women ages 21-65.

Continued on next page
Continued from previous page

» Chlamydia infection screening for younger women and other women at higher risk.

» Contraception: Food and Drug Administration approved contraceptive methods, sterilization procedures, and patient education and counseling, not including abortifacient drugs.

» Covered services/devices include: One IUD every two years (including removal), generic oral contraceptives, NuvaRing, Ortho Evra, diaphragms, cervical caps, emergency contraceptives (Ella, and generics only), injections, hormonal implants (including removal), Essure, and tubal ligation.

» Domestic and interpersonal violence screening and counseling for all women.

» Folic acid supplements for women who may become pregnant, covered under the pharmacy benefit when prescribed by a physician.

» Gestational diabetes screening for women 24 to 28 weeks pregnant and those at high risk of developing gestational diabetes.

» Gonorrhea screening for all women at higher risk.

» Hepatitis B screening for pregnant women at their first prenatal visit.

» Human immunodeficiency virus (HIV) screening and counseling for sexually active women.

» Human papillomavirus (HPV) DNA test: high risk HPV DNA testing every three years for women with normal cytology results who are 30 or older in conjunction with cervical cancer screening (pap smear).

» Osteoporosis screening for women over age 60 depending on risk factors.

» Rh incompatibility screening for all pregnant women and follow-up testing for women at higher risk.

» Tobacco use screening and interventions for all women, and expanded counseling for pregnant tobacco users.

» Sexually transmitted infections (STI) counseling for sexually active women.

» Syphilis screening for all pregnant women or other women at increased risk.

**Covered Preventive Services Specifically for Children**

(Younger than age 18)

» Preventive physical exam visits throughout childhood as recommended by the American Academy of Pediatrics including:

» Behavioral assessments for children of all ages;

» Blood pressure screening for children;

» Developmental screening for children under age 3 and surveillance throughout childhood;

» Oral health risk assessment for young children;

» Alcohol and drug use assessments for adolescents.

» Autism screening for children at 18 and 24 months.

» Cervical dysplasia (pap smear) screening for sexually active females.

» Congenital hypothyroidism screening for newborns.

» Depression screening for adolescents.

» Dyslipidemia screening for children at higher risk of lipid disorders.

» Fluoride chemoprevention supplements for children without fluoride in their water source.

» Gonorrhea preventive medication for the eyes of all newborns.

» Hearing screening for all newborns, birth to 90 days old.

» Height, weight, and body mass index measurements for children.

» Hematocrit or hemoglobin screening for children.

» Hemoglobinopathies or sickle cell screening for newborns.

» HIV screening for adolescents at higher risk.

» Immunization vaccines for children from birth to age 18 — doses, recommended ages, and recommended populations vary:

» Diphtheria, tetanus, pertussis (Dtap);

» Haemophilus influenzae type b (Hib);

» Hepatitis A;

» Hepatitis B;

» Human papillomavirus (HPV);

» Males age 9-21 Gardasil;

» Females age 9-26 Gardasil or Cervarix;

» Inactivated poliovirus;

» Influenza (Flu Shot);

» Measles, mumps, rubella;

» Meningococcal (meningitis);

» Pneumococcal (pneumonia);

» Rotavirus;

» Varicella (chickenpox).

Learn more about immunizations and see the latest vaccine schedules at www.cdc.gov/vaccines/.

» Iron supplements for children ages 6 to 12 months at risk for anemia.

» Obesity screening and counseling.

» Phenylketonuria (PKU) screening for this genetic disorder in newborns.

» Sexually transmitted infection (STI) prevention counseling and screening for adolescents at higher risk.

» Tuberculin testing for children at higher risk of tuberculosis.

» Vision screening for all children one time between ages 3 and 5.

**Coverage for Specific Drugs**

Payable through the Pharmacy Plan when received at a participating pharmacy with a prescription from your doctor. Over-the-counter purchases are not covered. See applicable Benefits Summary for coverage information.

» Aspirin use for men age 45-79 and women age 55-79.

» Breast cancer medications for women at higher risk. Tamoxifen or Raloxifene.

» Folic acid supplements for women who may become pregnant.

» Fluoride chemoprevention supplements for children without fluoride in their water source.

» Iron supplements for children ages 6 to 12 months at risk for anemia.

» Tobacco use cessation interventions, up to the maximum approved dose and duration per plan year.

* PEHP processes claims based on your provider’s clinical assessment of the office visit. If a preventive item or service is billed separately, cost sharing may apply to the office visit. If the primary reason for your visit is seeking treatment for an illness or condition, cost sharing may apply. Certain screening services, such as a colonoscopy or mammogram, may identify health conditions that require further testing or treatment. If a condition is identified through a preventive screening, any subsequent testing, diagnosis, analysis, or treatment are not considered preventive services and are subject to the appropriate cost sharing.
Get the Best Care by Asking 5 Questions

You have the right to know and ask questions about your care. Ask these five questions to make sure you are informed and comfortable with your treatment options.

1. How will this treatment help me?
The effectiveness of a treatment can vary. In fact, some care may even be unnecessary. According to the Institutes of Medicine, more than 30% (or $750B) of healthcare fits this category, which is more than we spend on K-12 education as a nation. Make sure you know how care will help you.

2. What are the potential downsides?
Healthcare helps make our lives better, but it is not without risks. Even routine treatment can have risks due to infections, errors, and adverse reactions. Make sure you know about the risks of care.

3. Are there simpler, less costly options?
Healthcare providers can mistakenly assume they know what you want. This can include surgeries over therapy and medications over lifestyle changes. Make sure you know your options, including those that are less costly and less invasive, so you can decide what is best for you.

4. What would happen if I didn’t get treatment?
Our bodies are amazing in their ability to heal. At times, the best option may be to let the body heal naturally or forego a treatment that potentially may do more harm than good. Make sure you know what would happen if you didn’t get care.

5. How much will this cost?
No one likes to think about costs when it comes to getting the healthcare you need. But it would be a mistake to believe that expensive care is the best care in every situation or that providers who operate in a business environment are not aware of how the cost of care impacts their bottom line. Don’t be afraid to ask about costs. A drug that costs $10 can be better than one that costs $500 and a lab that costs $10 is no different than one that costs $100.
PEHP Cost Tools

Find Quality Care & Best Value
Finding quality care at the right place is important. PEHP has several cost comparison tools that help you shop for the best providers and the best value. To get started, log in to your PEHP account and click “Find Providers & Costs” in the top menu.

Find and Compare Providers
Under the “Find a Provider” tab, you can search for doctors and other healthcare providers in your network, see and compare cost information, and read reviews from other PEHP members. Plus, you can see how often a doctor refers lab work to a costly hospital or lower-cost independent lab.

Find and Compare Healthcare Facilities
Under the “Find a Facility” tab, you can search for healthcare facilities (e.g. hospitals, clinics, surgical centers) in your network, and see and compare cost information.

Looking for Lower Drug Costs?
Click on “Compare Prescription Costs.” You’ll see medication prices from different pharmacies, including home delivery, which is often less expensive. To get the best deal, use medications on lower tiers in the PEHP Covered Drug List – a list of prescription medications available to members at lower costs.

These cost comparison tools are just one way we strive to make healthcare costs transparent, so you decide where to go for the best care and value.
**Compare Medical Costs & Find Cash Back Opportunities**

Under the “Compare Medical Costs” tab, you can search by medical services. You’ll see cost information for services based on past claims PEHP processed. Your search results will display common services based on the treatment you entered to give you a better idea of total costs at different locations where the service has been performed. For each location, you’ll see a list of providers who have performed your desired treatment. Compare providers and costs to seek quality care and great value.

Look for cash back opportunities offered by PEHP for certain medical services performed by lower-cost providers. The amount of cash back can range from $50 to $2,000. You’ll see a **cash back indicator** next to the location categories and provider names. To qualify for cash back, you must contact PEHP at 801-366-7555 or via the secure Message Center **before** receiving services.

PEHP Wellness

For the Worksite

Wellness Council Support & Resources
A Wellness Council is a diverse team of individuals who work to improve the health and well-being of employees and the organization as a whole. They support employee-focused activities and organizational changes to create a healthy workplace where employees can thrive.

Mini-Grants, trainings and technical assistance are available to help you start and maintain a wellness council at your worksite.

Rebates*
First Steps Rebate ($50)
Get screened at a Healthy Utah Biometric Testing Session or at your Health Care Provider’s office (with First Steps rebate form), participate in 3 PEHP Wellness activities (1 webinar, 1 challenge, and 1 Workout Warrior), then take Questionnaire within 90 days.

Next Steps Rebate ($50)
After completing First Steps Rebate, participate in your choice of PEHP Wellness activities and submit a completed rebate form. Other available rebates include Diabetes Management, WeeCare, and Tobacco Cessation.

To learn more about PEHP Wellness, visit www.pehp.org/wellness.

*PEHP Rebates may not apply to all plans and are taxable. Members in the Consumer Plus Plan are not eligible for rebates.

Wellness for You

Annual Biometric Screening
Complete annual biometric testing (cholesterol, blood glucose, body composition, and blood pressure) at a Healthy Utah testing session or your annual preventive doctor office visit to earn rebates.*

Wellness Challenges
These monthly email-based educational challenges are self-guided and can assist you with setting and achieving your health goals.

Webinars
Get connected online with our quarterly wellness webinar series. Join us for 30 minutes of useful health information. All webinars are archived online and can be viewed anytime.

Seminars
PEHP Wellness staff conduct free on-site seminars throughout Utah on various health topics.
